Technology Topology and Framework

Managed Transparency

The transparency theme for limited partners is a pervasive topic in private equity circles. Offering a level of transparency has huge advantages for marketing and fund raising. The real point of contention regarding the subject is "How much transparency does the GP wish to provide?". eWebLP.net has a scalable architecture to robustly meet this requirement.

WeLP has an administration module that explicitly publishes sanctioned information to the eWebLP data repository outside your firewall. The PEO or Venture Complete repository is not exposed over the Internet. Explicitly published information, pertaining to LP's, is available through a standard web browser over the Internet.

Recommended Server Configuration

Web/IIS Server

SERVER SIDE - HARDWARE

Minimum

Memory (RAM) **4 GB**

Disk Space **20 GB**

Processor Speed **1.8 GHz**

Recommended

Memory (RAM) **8 GB**

Disk Space **80 GB**

Processor Speed **2.4 GHz**

SERVER SIDE - SOFTWARE

Minimum

Operating System **Microsoft Windows 2003 Server**

IIS **Internet Information Service 6.0**

.Net **Framework 1.1**

SSL **Certificate**

Reporting Services **2005 Microsoft Reporting Services**

Recommended

Operating System **Microsoft Windows 2003 Server ENT**

IIS **Internet Information Service 6.0**

.Net **Framework 1.1**

SSL **Certificate**

Reporting Services **2005 Microsoft Reporting Services**

SQL (Internal Network)

SERVER SIDE - HARDWARE

Minimum
